EDUCATION

University of Wisconsin-Madison
B.S. Computer Sciences | GPA: 3.89

September 2024 – December 2027

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, C, SQL, HTML/CSS, Bash

Frameworks & Tools: React, Node.js, Express, Supabase, Vite, Vercel, Git, WordPress

Areas: Full-stack web development, software engineering, backend/API development

WORK EXPERIENCE

Wisconsin Indigenous Languages Lab

Remote

Software Engineer, Nisinoon Project

July 2026 – October 2026

NSF-funded Algonquian language database used by linguists and tribal communities for language revitalization, UW–Madison

- Redesigning and extending the existing vanilla HTML/CSS/JS frontend of nisinoon.net, integrated with a Node.js/Express backend, collaborating weekly with the project lead and UX designer
- Diagnosed and fixed state-persistence bugs in localStorage-backed filter controls and a Handlebars misconfiguration; led a homepage/search redesign and built a configurable results-table field-visibility feature (Handlebars, Express routes, vanilla JS) letting users toggle 9 data columns
- Built a configurable results-table field-visibility feature from scratch (Handlebars template logic, Express route/query handling, vanilla JS UI component), letting users toggle which of 9 data columns display in search results

Taipei Youth Program Association

Summer Camp Instructor

Summers 2023 – 2025

- Sole returning counselor promoted to instructor, leading 2–3 counselors in daily programming for 15–25 children

PROJECT EXPERIENCE

CHASA Website

Summer 2026

Chinese American Student Association — Solo Project

- Built a full-stack website (React/TypeScript) for a 200+ member organization, including an event calendar, photo carousels, e-board history archive, and intern-program recruitment page
- Designed and implemented a real-time leaderboard tracking points across the club's "fam" mentorship-team system

Kanban Task Manager

April 2026

Solo Project — React, TypeScript, Supabase

- Built a full-stack drag-and-drop Kanban board with anonymous guest auth, Row Level Security, and real-time database persistence; deployed via Vercel with CI/CD through GitHub
- Implemented priority sorting, due-date urgency indicators, label filtering, and board summary statistics · kanban-app-prototype.vercel.app

FIRST Robotics Competition

Statistics Programmer & Scout Manager (Python/HTML)

April 2023 – July 2024

- Sole developer of a statistics-recording website used by a 60-person FRC team, with ~20 scouts logging match data in real time across multiple international competitions
- Analyzed live scouting data to predict match outcomes and inform alliance selection and game strategy; managed and mentored scouting/programming subteams

Other projects: <https://tylers-personal-website.vercel.app>

LEADERSHIP

Chinese American Student Association (CHASA)

Finance Chair

April 2025 – Present

- Manage and record association funds; set budgets for outings and events (~\$8,000 yearly budget)
- Organize fundraising events and collaborations with local restaurants; lead concessions group at UW–Madison athletic venues

AWARDS

Dean's List (x3), Fall 2024 – Fall 2025
