EDUCATION

University of Wisconsin-Madison
Bachelor of Science (B.S) Computer Sciences Major

September 2024 – December 2027
GPA: 3.89

TECHNICAL SKILLS

- Languages: JavaScript, TypeScript, Python, Java, C, SQL, HTML/CSS, Bash
- Frameworks & Tools: React, Node.js, Express, Supabase, Vite, Vercel, Git, WordPress
- Areas: Full-stack web development, software engineering, backend/API development

WORK EXPERIENCE

Wisconsin Indigenous Languages Lab, UW-Madison — Frontend Developer, Nisinoon May 2026 - Present
Project - Remote | *NSF-funded Algonquian language database used by linguists and tribal communities for language revitalization*

- Redesigning and rebuilding the frontend of nisinoon.net in vanilla HTML/CSS/JS integrated with a Node.js/Express backend, collaborating weekly with the project lead and UX designer
- Fixed bugs in and added new functionality to the site's search system, and led a redesign of the homepage and search interface (multi-language filtering, reorganized advanced-search fields) based on specs from the project lead and UX designer
- Improved page load time by optimizing graphics and image assets across high-traffic pages

Taipei Youth Program Association — Summer Camp Counselor / Instructor Summers 2023 – 2025

- Led 2–3 counselors in supervising daily activities for 15–25 children ages 5–12, ensuring safety and engagement
- Sole returning counselor promoted to instructor based on proactive leadership and teaching potential
- Worked closely with special needs students to foster an inclusive, diverse environment

PROJECT EXPERIENCE

CHASA Website — Chinese American Student Association (Solo Project) Summer 2026

- Built a full-stack website for CHASA using React/TypeScript, featuring an event calendar, photo carousels from past events, an e-board history archive, and an intern-program recruitment page
- Designed and implemented a real-time leaderboard tracking points across the club's "fam" mentorship-team system

Kanban Task Manager Website, Solo Project (React, TypeScript, Supabase) April 2026

- Built a full-stack drag-and-drop Kanban board with anonymous guest auth, Row Level Security, and real-time database persistence
- Implemented priority sorting, due-date urgency indicators, label filtering, and board summary statistics
- Deployed via Vercel with continuous deployment through GitHub · [kanban-app-prototype.vercel.app](#)

FIRST Robotics Competition, Statistics Programmer & Scout Manager (Python/HTML) April 2023 – July 2024

- Sole developer of a statistics-recording website used by a 60-person FRC team, with ~20 scouts logging match data in real time across multiple international competitions
- Analyzed live scouting data to predict match outcomes and inform alliance selection and game strategy
- Managed multiple scouting teams and mentored programmers on the statistics platform

Other projects can be found on my portfolio website: <https://tylers-personal-website.vercel.app>

LEADERSHIP

Chinese American Student Association (CHASA), Finance Chair April 2025 – Present

- Manage and record association funds; set budgets for outings and events (~\$8,000 total yearly budget)
- Organize fundraising events and collaborations with local restaurants
- Group lead for concessions at UW-Madison athletic venues to raise event funds

AWARDS

Dean's List (x3)

Fall 2024 – Fall 2025
